

DULANJAN HASARANGA

Business Analyst Intern | Information Systems Engineering Undergraduate

Malabe, Sri Lanka | +94 76 323 3294 | dulanjan.connect@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Third-year Information Systems Engineering undergraduate seeking a Business Analyst Internship, with practical experience in requirements elicitation, business process analysis, stakeholder communication, documentation, Agile/Scrum collaboration, and system development. Experienced in translating business needs into functional requirements, user stories, workflows, and practical digital solutions through academic, independent, and real-client projects. Strong analytical and problem-solving skills with knowledge of SQL, Microsoft Excel, Power BI, REST APIs, databases, Java, Spring Boot, React.js, and system design. Eager to contribute to business process improvement, digital transformation, and effective project delivery.

TECHNICAL & ANALYTICAL SKILLS

Business Analysis: Requirements Gathering, Requirements Elicitation, Requirements Analysis, BRD, SRS, Functional Requirements, Non-Functional Requirements, User Stories, Acceptance Criteria, Stakeholder Analysis, Requirements Validation

Process & Documentation: Business Process Analysis, AS-IS/TO-BE Process Mapping, Workflow Diagrams, UML, Draw.io, Business Documentation, Report Preparation

QA & Software Testing: Manual Testing, Functional Testing, System Testing, UAT Support, Test Case Preparation, Bug Reporting, Requirements Validation

Agile & Project Collaboration: Agile/Scrum, Sprint Planning, Cross-Functional Collaboration, Jira, Trello, SDLC

Technical & Tools: SQL, MySQL, Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Power BI, REST APIs, Figma, Git/GitHub

PROFESSIONAL EXPERIENCE

Business Analyst – E-Commerce Cart Abandonment Case Study | *Business Analyst Case Study*

[GitHub: Cart-Abandonment-Project](#)

- Analyzed a checkout funnel dataset of **90,400 visitors** to identify major drop-off points and business improvement opportunities.
- Gathered and documented requirements through a BRD, stakeholder personas, AS-IS/TO-BE process maps, user stories, and acceptance criteria.
- Developed evidence-based recommendations to improve the customer journey and checkout process.
- Prepared and presented an executive recommendation presentation

Lanka Health Insurance | *Academic Project*

[GitHub: Lanka Health Insurance](#)

- Gathered and documented stakeholder requirements, use cases, and business workflows for policy and claims management.
- Applied Agile/Scrum practices through sprint planning, requirements discussions, and iterative development.
- Collaborated with frontend, backend, integration, and testing team members to maintain alignment between requirements and delivered functionality.

Prime Medical - Healthcare Management System | *Full-Stack Academic Project*

[GitHub: Prime-Medical](#)

- Analyzed and supported a healthcare management system covering appointments, consultations, prescriptions, inventory, billing, payments, notifications, and multiple user roles.
- Worked with role-based workflows and translated system requirements into practical application features.
- Collaborated across development and testing activities to support functional requirements and system validation.
- Technologies: Java, Spring Boot, Spring Security/JWT, MySQL, React, Git.

Ceylon Haven - Hotel Reservation System | *Independent Software Project*

[GitHub: Hotel-Reservation-System](#)

- Gathered and documented functional requirements, user roles, workflows, and business rules through an SRS.
- Analyzed business processes covering reservations, payments, check-in/check-out, and reporting.
- Translated business requirements into role-based digital functionality for Admin, Staff, and Customer users.

EDUCATION

BSc (Hons) in Information Technology, Specializing in Information Systems Engineering

Sri Lanka Institute of Information Technology (SLIIT) Currently in Year 3, Semester 1 | Expected Graduation: 2028
